

CALON

GLORIA

- ▶ Light weight and easy to transport
- ▶ Great for car toppers, small fishing rigs, inflatables and tenders
- ▶ High grade marine aluminum alloy that provides the ultimate protection against corrosion
- ▶ CDI ignition provides automatic spark advance to provide maximum power throughout the whole RPM range
- ▶ Loop charging boosts power and fuel efficiency
- ▶ Comes standard with shallow water drive, an extremely useful feature when tackling rivers, estuaries and creeks.
- ▶ Truly five layers of paint, good corrosion resistance.

Specifications

MODEL	T9.9
Type	2 Stroke
Maximum output (kw)	7.3
Dimensions (mm)	S:873*332*1043 L:873*332*1170
Weight (kg)	S: 36 L:37.5
Maximum operating range(rpm)	4500-5500
Number of cylinder	2
Bore x Stroke(mm)	56 x 50
Displacement (cc)	246
Engine lubrication system	Premixed Fuel
Cooling system	Water/Thermostatic Control
Starting system	Manual Start
Ignition	CDI
Fuel tank capacity(L)	24
Speed control	Twist grip type
Gear ratio	2.08 (27:13)
Gear Shift	F-N-R
Propeller(in.)	9 1/4*9-J

CALON GLORIA MOTOR FEATURES

- ▶ **Overspeed protection**
If the machine is running, the engine speed exceeds the specified speed value, the machine speed limit protection device will automatically limit the speed, to prevent engine overheating caused by engine damage
- ▶ **Low oil pressure warning**
When the oil pressure drops below the specified pressure, the engine speed drops automatically
- ▶ **Overheating protection**
If the inlet is blocked, the machine is hot. The cylinder head is equipped with a temperature-controlled sensor. If the temperature is too high, the automatic speed limit will not work properly and the machine will not be damaged.
- ▶ **Carburetor improvement**
Anti corrosion for carburetor, and improvement on the idle jet to main jet, engines will be more stable.
- ▶ **5 layers paint**
5 layers point for anti corrosion, with electrophoretic coating ensuring the best protection.
- ▶ **Anti-noise system**
New improvement on the anti-noise system for exhaust control, it's a quiet engine
- ▶ **New design for exhaust system**
More precisely temperature control with the new design on exhaust radiator.
- ▶ **Upgraded oil piper**
Anti-aging upgraded oil piper, pressure test over 0/4kg, tensile strength over 8MPA and the elongation at break is over 200%
- ▶ **Automatic positioning system**
Automatic positioning system tilt through the elastic locker, much easier for operation
- ▶ **Hour metering**
New added the hour metering, ensure the right time for maintenance.
